THE NEXT GENERATION OF POWER

THE ALL-NEW 2007 TUNDRA
THE TRUCK THAT'S CHANGING IT ALL

It's simple: You want to know whether Tundra has the guts—the size, strength, stamina and sheer capability—to do the work you need done. The work of a true, full-size truck. Offered with an available 381-horsepower 5.7-liter V8 engine, the new Tundra is no ordinary 1/2-ton.
