

# Downtown road closures

Road crews have opened Bay Street (as a two-way street) from the City of Palms parking garage east to Jackson Street and have closed Bay Street from the City of Palms parking garage west to Monroe Street for the next phase of the Downtown Utility and Streetscape Improvements Project. Bay Street will not be a through street at this time.

Vehicles will now be able to enter the parking garage from Monroe or Bay Streets. Vehicles will exit the parking garage EAST onto Bay Street which will be a two-way street.

This schedule is subject to change due to inclement weather and unforeseen underground conditions, etc. ■

Visit the project website at [www.fmstreetscape.com](http://www.fmstreetscape.com) for current maps.
