

“Why get a total knee  
if you only need  
a **partial?**”

Mary Lou Retton  
1984 Olympic Gold Medalist  
Biomet Joint Replacement Patient

**ASK YOUR DOCTOR ABOUT  
THE OXFORD® PARTIAL KNEE.**

Now there's an alternative to total knee replacement. The Oxford® Partial Knee from Biomet. It's the only one of its kind in the United States. The Oxford® Partial Knee lets you keep up to 75% of your healthy knee — for a more rapid recovery with less post-operative pain and more natural motion. Why get a total knee when maybe all you need is a partial knee from Biomet? To learn more, or to find an Oxford® Knee trained surgeon in your area, call or visit our website.

THE  
**Oxford**®  
Partial  
Knee

*Restoring motion the way nature intended.*

Advanced science  
for real living.™

Not all patients are candidates for partial knee replacement. Only your orthopedic surgeon can tell you if you're a candidate for joint replacement surgery, and if so, which implant is right for your specific needs. You should discuss your condition and treatment options with your surgeon. The Oxford® Meniscal Partial Knee is intended for use in individuals with osteoarthritis or avascular necrosis limited to the medial compartment of the knee and is intended to be implanted with bone cement. Potential risks include, but are not limited to, loosening, dislocation, fracture, wear, and infection, any of which can require additional surgery. For additional information on the Oxford® knee, including risks and warnings, talk to your surgeon or visit Biomet.com.

“MY **ARTHRITIS**  
PAIN IS GONE.”

Mary Lou Retton  
1984 Olympic Gold Medalist

“THE **M<sup>2</sup>a-MAGNUM™** HIP  
IS A PERFECT 10 WITH ME.”

When you're an Olympic champion, you have high standards. Fortunately, so does Biomet. That's why, when Mary Lou Retton needed a hip replacement, her doctor recommended the Biomet M<sup>2</sup>a-Magnum™ hip. It offers incredible range of motion, greater stability, and longer implant life — making it a great choice for active people like you. To learn more, or to find a Biomet surgeon in your area, call or visit our website.

M<sup>2</sup>a-Magnum™ Hip

Advanced science  
for real living.™

Individual results may vary. There are potential risks to hip replacement surgery. Visit [www.biomet.com](http://www.biomet.com) and read “Risk Information.” The life of any joint replacement will depend on your physical condition, activity levels, willingness to follow surgeon's instructions, and other factors. Only an orthopedic surgeon can determine whether you are a candidate for hip replacement surgery. M<sup>2</sup>a-Magnum™ is a trademark of Biomet Manufacturing Corp.
