

Outpatient Center The Sanctuary – Now Open

Meeting Your Health Care Needs in One Convenient Location

The Outpatient Center at The Sanctuary is a brand new 80,000-square-foot facility opening in spring 2009 with a multitude of services in one state-of-the-art location. The Outpatient Center is located next to Lee Memorial Health System's new Regional Cancer Center in an easily accessible spot near the intersection of Interstate 75 and Colonial Boulevard.

Like our other Outpatient Centers, The Sanctuary will offer patients and family members a range of diagnostic services, such as MRIs, CT scans, ultrasounds, X-rays and nuclear medicine studies. There will also be cardiovascular services, including stress testing, echocardiograms, electrocardiograms and a vascular lab.

We will also offer outpatient rehabilitation services, the only accredited Pain Management program between Tampa and Miami an outpatient lab, Lee Physician Group primary care offices and Gulf Coast Pulmonary, Dr. Sunil Pammi.

LMHS' Spine Center will also be housed at the new Outpatient Center. The Spine Center is part of a comprehensive, wellness-based program that offers coordinated care for back and neck pain.

The Breast Health Center will offer digital mammograms as well as bone density testing.

An ambulatory surgery center will open at the Center in 2010.

Expert Care. Personal Attention.

- The new Outpatient Center features easy access, plentiful parking and a dedicated, experienced staff to meet your health care needs.
- The Outpatient Center at The Sanctuary has advanced diagnostic equipment in a brand new, state-of-the-art building conveniently located near Interstate 75.
- LMHS Outpatient labs are conveniently located at our outpatient centers. With your physician's lab slip, patients can undergo any outpatient laboratory test required for diagnostic screening.
- Looking for a new physician? Call the Lee Physician Group New Patient Appointment line at 239-481-4111.
